

Alex Levitsky is a registered architect, facility planner and directs operations of the northern division of the Global Sports & Tennis Design Group llc.

Since the Global Consult Group's team started Global Sports & Tennis Design Group in February 2000, Alex has worked on the design of hundreds of tennis courts including: stadium courts, field courts, training courts, hard and soft courts, indoor and outdoor courts. Alex has designed facilities with clubhouses, indoor tennis buildings, tournament facilities, other sports fields, and grandstands. Clients have included club owners, universities, schools, resorts, counties and municipalities, other engineers and architects, and private residences.

Alex was awarded Distinguished Service Awards from the American Sports Builders Association (ASBA) in recognition of outstanding services to the industry and its members and he has been an invited speaker at the annual ASBA Technical Meetings on design of tennis facilities. Since accepting an invitation to join the USTA Technical Committee in January 2003, Alex has represented the USTA on the Joint Editorial Board; the body responsible for revisions to the "*Tennis Courts: A Construction and Maintenance Manual*", official manual of the USTA & ASBA.

Since first invited by Sheldon Westervelt to participate in the inspection of construction of the major court expansion of the NTC at Flushing Meadows (1994-1997), Alex has been active in consulting. In 2007, he contributed to the design of the tennis courts in the Indoor Training Center at the USTA National Tennis Center and recently, has been assisting Sheldon Westervelt, PE archive the court construction history of the outdoor courts at the NTC. Alex remains a tennis court design consultant to the NTC.

Since the Mid-1990s, Alex worked with Sheldon Westervelt on the design of over 50 sports facilities, including projects in 20 States and 10 foreign Countries.

Earlier Experience:

- Early 1990s – Administration of the completion of the first drafts of zoning regulations for five cities in Russia. The City Administrations of St. Petersburg and Irkutsk presented him with awards for his contribution to the project.' Supervised the design of the first post Cold War development project in Volgograd, Russia. In the housing component, the Ambassador of the United States presented the keys to the units to each Russian family.
- Mid-1980s - Over 100 architectural and land planning projects, including 19 mixed-use developments as designer with N/K Architects in Morristown, NJ. 5 AIA award winners.
- Early 1980s – Designer of international design award-winning medical training campuses in Nepal. Co-Author of the Master Plan for a new college campus for the King of Nepal.

Over 30 years of practice, Alex has been recognized more than 40 times for excellence in design and planning by local, State and international authorities and associations.

Alex is a registered architect in New Jersey, Florida, Alabama & South Carolina; and was professional planner in New Jersey; received National Council of Architectural Registration Boards Certification in 1996; member of the AIA, CSI & APA; USTA Technical Committee and ASTM Fo8 Committee member and past-president of the professional division of the ASBA.
